

CREW & VISITOR TEMPERATURE CHECKLIST: COVID-19

Vessel Name: _____

Captain: _____

Safety Tip: When checking someone's temperature wear your PPE; gloves & a mask. Remember to sanitize yourself & thermometer.

The captain or vessel owner can use this document to record the temperature of crew and essential visitors each time they board the vessel. If a crew member or visitor displays a temperature of 38.1°C or higher they must return home & self isolate. If they display symptoms such as: fever, new cough or a cough that's getting worse, sore throat, runny nose and headache instruct them to return home, self-isolate & call 811 for assessment.
